

Habitat for Humanity Of Harnett County A Homeowners Story

“I was renting a house and barely making enough money to cover the rent. The heat was gas and I couldn’t afford that and rent, so we had no heat or hot water until we got our Habitat House.”

“My daughter and I moved into the home when she was 16 years old. She has moved out now and I live alone. I have lived here for 9 years.”

“I never would have had the chance to own my own home if it wasn’t for Habitat. It gave me hope, stability, and a chance to start over. Also, a sense of responsibility.
